1. The 2026 wellness requirements do not apply if you were newly enrolled in the LSC medical plan after August 1, 2025, in which case you will automatically receive the credit.
2. Employee contributions for the coverage of non-tax-dependents, such as domestic partners and their children, are deducted on a pre-tax basis based on the premium amounts noted above. However, you will also pay taxes on the value of the coverage as imputed income. Imputed income is calculated by subtracting the COBRA premium for Employee Only coverage from the COBRA premium for the coverage you have in effect such as Employee + Spouse in the case of just covering a domestic partner. The difference is your imputed income. COBRA coverage for this purpose is 100% of the unsubsidized cost of coverage and not 102%. The imputed income amount is added to your paycheck as taxable income and results in income tax withholdings.
3. If you are paid biweekly, you will need to multiply the rate by 2 to determine your per pay period amount.
4. Base salary as of September 1, 2025

## Health Savings Account (HSA) Match for 2026

If you enroll in **HSA CORE** or **HSA VALUE**, for every \$1 you contribute to your HSA, the Company will match \$1 — up to \$500 per year (maximum of \$125 per quarter) if you have Employee Only medical coverage, or \$1,000 per year (maximum of \$250 per quarter) if you cover dependents. You can use this account to pay for eligible health care expenses for you and your eligible dependents on a **tax-free basis** for federal income tax purposes (state laws may vary). The money in your account is always yours.
